

**UCLA**

*Department of Chemistry & Biochemistry presents*

**THE 2013  
M. FREDERICK HAWTHORNE  
LECTURE**

**Low, 2- or 3-Coordination Number  
Transition Metal Complexes and  
Their Magnetic Properties**

Honoring  
**Philip P. Power**  
*Distinguished Professor  
Department of Chemistry  
University of California, Davis*

**Wednesday, October 30, 2013  
Cram Conference Room  
3440 Molecular Sciences  
4:00 pm**

*Reception to follow*

---

***The 2013 M. Frederick Hawthorne Lecture is made possible by the  
Raymond and Dorothy Wilson Endowment.***
