

UCLA BIOCHEMISTRY MAJOR 2016-2017

BIOCHEMISTRY MAJOR (B.S.): This major is designed primarily for students who are interested in attending graduate school in Biochemistry or related areas. It also satisfies many of the requirements of pre-medical and other pre-professional schools. Refer to the UCLA General Catalog (www.registrar.ucla.edu/catalog) for course descriptions and requisites.

For more details about this major and others offered in the Department of Chemistry and Biochemistry, consult the Undergraduate Office in 4006 Young Hall.

Preparation for the Major	
General Chemistry (CHEM)	Chem 20A(H), 20B(H), 20L, 30AL
Organic Chemistry (CHEM)	Chem 30A(H), 30B, 30BL, 30C
Math (MATH)	Math 31A, 31B, 32A (33A recommended)
Physics (PHYSICS)	Physics [6A(H), 6B(H), 6C(H)] <u>OR</u> [1A(H), 1B(H), 1C(H), 4BL]
Life Science (LIFESCI)	Life Sci [2, 3, 4] <u>OR</u> [7A, 7B, 7C], 23L*

(H) indicates that an Honors section may be available

* Consult the Life Sciences Core Office about the sequencing of this course

Upper Division Major Requirements	
Chemistry (CHEM)	Chem 110A
Biochemistry (CHEM)	Chem 153A(H), 153B(H), 153C(H), 153L, 154, 156
One Chemistry or Biochemistry Elective (4 units)	One upper division or graduate-level Chemistry (CHEM) course
Three Electives (12 units)	Three upper division or graduate-level courses from the approved list (see separate list). Note: Life Sci 107 and MIMG 101 are highly recommended electives.

Important Notes

- You must have a minimum of 180 units to graduate, and 60 of those units must be upper division (courses numbered 100 to 199).
- The Biochemistry B.S. Upper Division Major Requirements satisfy at least 45 upper division units.
- All Preparation for the Major and Upper Division Major courses must be taken for a letter grade.
- Seminars, individual study courses, and research courses (e.g. 196, 199) may not be used to satisfy the requirements for the Biochemistry major.
- You must have a 2.0 GPA in the major to graduate with a degree. If you fall below a 2.0 GPA in the major, it is strongly recommended that you change majors.
- You may not take or repeat a chemistry or biochemistry course for credit if it is a prerequisite for a more advanced course for which you already have credit.
