

UCLA Biophysical (Track B) Chemistry Specialization 2024-2025

Student Information: DSP students are expected to earn their M.S. degree in one year (Fall, Winter, and Spring) and have the option to extend their graduation to the Summer.

Course Requirements:

- Chem 269A-C, 257, COM SCI C221, Chem 258
- 8 units of additional graduate courses from these options: Chem C223A, C223B, 257, M230D, Physics 220
- One elective course approved by area specialization advisor
- Chem 228 or 268 every quarter
- Chem 400 (S/U grade)
- Chem 598 (research units with your advisor) every quarter
- Group meeting with your advisor every quarter (attendance required, enrollment optional)

All courses must be taken for a letter grade unless it is only offered as S/U

SAMPLE COURSE PLAN			
Quarter	Course #	Course Title	Units
Fall	Chem C223A	Advanced Thermodynamics and Statistical Mechanics with Laboratory I	4
	Chem 258	Advanced Topics in Biochemistry and Molecular Biology	2
	Chem 269A-C	BMSB Bootcamp	6
	Chem 228 or 268	Seminar	2
	Chem 598	Research for and Preparation of MS Thesis	2
Winter	Chem C223B	Classical and Statistical Thermodynamics	4
	Chem 228 or 268	Seminar	2
	Chem 400	Safety in Chemical and Biochemical Research	2
	Chem 598	Research for and Preparation of MS Thesis	4
Spring	COM SCI C221	Introduction to Bioinformatics	4
	Elective	See Advisor	4
	Chem 228 or 268	Seminar	2
	Chem 598	Research for and Preparation of MS Thesis	4
Summer (optional)	Must register for a UCLA course		1 unit minimum
